PROFESSIONAL SUMMARY

ICT Application Development graduate skilled in Java, Spring Boot, React and MySQL, with experience developing full-stack applications, database-driven systems and IoT solutions. Currently pursuing an Advanced Diploma in ICT Application Development, with a strong interest in technology, innovation and continuous professional growth.

TECHNICAL SKILLS

Programming	Java, Python, JavaScript, SQL, HTML5, CSS3
Backend	Spring Boot, JPA, JDBC, REST APIs, Domain-Driven Design
Frontend	React.js, HTML5, CSS3
Databases	MySQL, Database Design, ERD Modelling
IoT & Embedded	Arduino, Raspberry Pi, PIR Sensors, Ultrasonic Modules, DHT11, LDR
Tools	Git, GitHub, Postman, IntelliJ IDEA, VS Code, Apache NetBeans, Figma, PyCharm

PROFESSIONAL EXPERIENCE

CAPACITI - Demand Academy | Cape Town, South Africa - Technology / Digital Skills Programme | August 2026 – Present

- Selected for the **CAPACITI Demand Academy programme**, building practical technology skills, workplace readiness, and professional experience through structured technical development and industry exposure.

Phakisa Holdings | General Worker - 2021 – 2022

- Demonstrated reliability, teamwork and accountability while supporting daily operations, maintaining workflow efficiency, and adhering to workplace safety standards.

EDUCATION

Diploma in ICT: Application Development

Cape Peninsula University of Technology | Completed 2025

SELECTED PROJECTS

Student Marketplace System | Java | Spring Boot | MySQL | React

- Developed a full-stack student trading platform enabling users to list, search and manage marketplace transactions. Applied backend development, database integration and frontend development principles.

Library Management System | Java | SQL

- Designed and implemented a database-driven library management system with CRUD functionality, database integration and user record management.

Smart Access, Smart Spaces – IoT Project | Raspberry Pi | Arduino | Python

- Developed a smart access and monitoring solution using PIR and environmental sensors, with real-time monitoring and motion-driven energy optimisation.

CORE STRENGTHS

Software Development • Problem Solving • Teamwork • Communication • Leadership • Adaptability • Continuous Learning
